

**Prices**

Applicable from 1 April 2023

**Vitocrossal 300**

**Type C13**

Highly efficient gas condensing boiler with modulating MatriX cylinder burner for natural gas E and LPG P, for open flue or room sealed operation

- For single boiler systems or cascades
- With Inox-Crossal heat exchanger
- Operation without return temperature limit
- With hydrogen blends of up to 20 % by vol.
- Safety equipment sized to rated heating output at a system temperature of 80/60 °C (EN 12828)
- Intrinsic protection against low water
- With two return connectors

**Permissible operating temperature up to 95 °C**

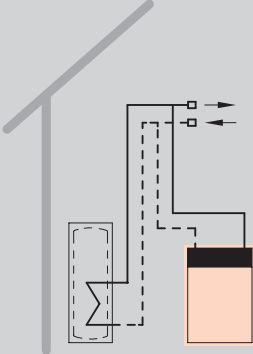

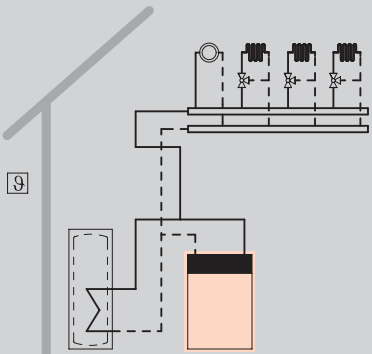

**Permissible safety temperature up to 110 °C**

**Permissible operating pressure 6 bar (0.6 MPa)**

- Condensing unit featuring MatriX cylinder burner with O<sub>2</sub> combustion control, 80 to 636 kW. Version up to 318 kW as single boiler with one burner; from 480 kW as twin with 2 burners
- Boiler available as a fully wired and pre-assembled unit
- Standard seasonal efficiency [to DIN] up to 97.3 % (Hs) [gross cv]
- High operational reliability and a long service life due to corrosion-resistant Inox-Crossal heat exchanger made from stainless steel
- Low-wear operation due to extremely wide modulation range with the twin version, resulting in long burner runtimes and greatly reduced cycling
- MatriX cylinder burner with O<sub>2</sub> combustion control for reduced maintenance, improved efficiency, environmentally friendly operation and lower consumption costs. Modulation range down to 1:10
- 7-inch colour touchscreen with plain text and graphic display. One control platform for all applications, such as heating circuit and cascade control as well as DHW heating. For constant temperature or weather-compensated mode
- Clean combustion through self-calibrating, gas-adaptive combustion control (NO<sub>x</sub> category 6)
- Space saving and compact; integral castors and well fitted packaging make it ideal where access to the boiler room is difficult

Standard delivery:

- Boiler body with thermal insulation, adjustable feet and castors (fully plumbed and wired)
- Boiler control unit
- MatriX cylinder burner

**Note!**

For operating conditions and design information as regards the integration of hydraulic and control equipment, see the technical guide and datasheet.

MatriX cylinder burners have a manufacturer's certificate in line with BImSchV.

► For mating flanges for the boiler flow and return, see Accessories.

<p><b>WAGO MB/TCP gateway</b> For mounting on a top-hat rail Data exchange with an external system based on the Modbus/TCP communication standard Connections:</p> <ul style="list-style-type: none"> <li>■ Modbus/TCP terminals for connection to the on-site Modbus system</li> <li>■ 230 V~ power supply via plug-in power supply unit</li> <li>■ CAN bus terminals for connecting the cable to the Viessmann appliance</li> </ul> <p>Standard delivery:</p> <ul style="list-style-type: none"> <li>■ WAGO MB/TCP gateway for mounting on a top-hat rail</li> <li>■ Power supply unit for mounting on a top-hat rail</li> </ul>		<p>Z019286 <b>1.638,-</b></p> <p>Part no. <b>Euro</b></p>	
<p><b>WAGO MB/RTU gateway</b> For mounting on a top-hat rail Data exchange with an external system based on the Modbus/RTU communication standard Connections:</p> <ul style="list-style-type: none"> <li>■ Modbus/RTU terminals for connection to the on-site Modbus system</li> <li>■ 230 V~ power supply via plug-in power supply unit</li> <li>■ CAN bus terminals for connecting the cable to the Viessmann appliance</li> </ul> <p>Standard delivery:</p> <ul style="list-style-type: none"> <li>■ WAGO MB/RTU gateway for mounting on a top-hat rail</li> <li>■ Power supply unit for mounting on a top-hat rail</li> </ul>		<p>Z019287 <b>1.638,-</b></p> <p>Part no. <b>Euro</b></p>	
<p><b>WAGO BN/IP gateway</b> For mounting on a top-hat rail. Data exchange with an external system based on the BACnet/IP communication standard. Connections:</p> <ul style="list-style-type: none"> <li>■ BACnet/IP terminals for connection to the on-site BACnet system</li> <li>■ 230 V~ power supply via plug-in power supply unit</li> <li>■ CAN bus terminals for connecting the cable to the Viessmann appliance</li> </ul> <p>Standard delivery:</p> <ul style="list-style-type: none"> <li>■ WAGO BN/IP gateway for mounting on a top-hat rail</li> <li>■ Power supply unit for mounting on a top-hat rail</li> </ul>		<p>Z022176 <b>1.321,-</b></p> <p>Part no. <b>Euro</b></p>	
<p><b>Wall mounted enclosure for WAGO gateway</b> Enclosure for mounting the WAGO gateway on the wall</p> <ul style="list-style-type: none"> <li>■ Enclosure for wall mounting</li> <li>■ DIN top-hat rail prefitted</li> </ul>		<p>ZK04917 <b>91,-</b></p> <p>Part no. <b>Euro</b></p>	
<p><b>CAN bus cable</b> Cable to connect the WAGO gateway to the Viessmann appliance</p> <ul style="list-style-type: none"> <li>■ Length 7 m</li> <li>■ Plug pre-wired</li> </ul>		<p>ZK04974 <b>21,-</b></p> <p>Part no. <b>Euro</b></p>	

### Notes!

- For further information on appliances supported by the WAGO gateway, see Register 1 and [www.automation-gateway.info](http://www.automation-gateway.info)
- The connection to the on-site external control system and the configuration of the WAGO gateway must be carried out by a qualified contractor.

All prices are recommended prices excluding VAT.  
These are not end user prices, but serve as a basis for price calculations.

Unless otherwise stated, the products are readily available ex-stock.  
The General Terms & Conditions in the pricelist appendix apply.

Subject to modifications.
